Wilwood Engineering® - Disc Brake Kits

Forged Dynalite Pro Series Front Brake Kit

FDL Pro-Series Front Hub Kits offer complete disc brake upgrade solutions. These kits are easily optioned to suit the braking requirements and style preferences for a daily driver, serious competition, or the most discriminating show enthusiast. Most kits require no modifications for installation, and provide plenty of clearance inside popular 15" wheels. FDL Pro-Series kits can be used with either manual or power boost master cylinders.

Forged Dynalite Pro Series Rear Brake Kit

FDL Pro-Series rear disc brake kits provide a complete solution for popular muscle car rear axles on applications where individual wheel parking brake assemblies are not required. Forged billet Dynalite four piston calipers, two-piece hat and rotor assemblies, and high friction pads provide optimized and balanced braking for all types of off-road, competition, and other customized applications. Rotor choices provide options for high-tech show winning style, or heavy weight durability and cooling capacity for high heat competition.

Stainless Steel Brake Corporation (SSBC)

SSBC feature Disc Brake Conversion kits made of the finest components available. Everything you need is included: rotors, calipers, pads, lines and all necessary hardware. They are designed for "bolt-on" installation, with no welding or drilling required. Kits include an easy to follow detailed instruction guide and are backed with a 10-year warranty. SSBC has performance brakes for Street Rods and Muscle cars.

Please call to discuss your application.

COMP Cams® - Vacuum Canisters

Vacuum canisters capture an extra shot of vacuum from your engine for your power brakes. They are made for cars equipped with big cams and power brakes. These units approximately double the volume of vacuum available for your power brakes. They are recommended for cars with 14 in. of vacuum or less. Zinc plated Aluminum, with Check Valves and Mounting Hardware included Dimensions: 5" Diameter X 7" Tall.

Quick Clip Line Clips

Quick Clip line clips are designed for quick, clean and easy installation and are a great solution for mounting lines to boxed frames and panels. The feathered end easily pushes through a 9/32" hole for a quick and secure mount. Quick Clips are made of weather and UV resistant Nylon 6.6 and are available in five sizes.

Part #	Details	Price
TMI QC1875	3/16" Line Clip - 20 per pack	\$9.95 pack
TMI QC2500	1/4" Line Clip - 18 per pack	\$9.95 pack

MPB BR3737K	(2) Clips & (2) Bolt-On Tabs	\$10.95

Billet Specialties™ - Thru-Frame Brake Fittings

Machined from 303-Stainless steel. Available for 2" or 2 3/8" wide frame rails – sold in pairs.

Part #	Details	Price
BIL 66210	- 3 AN X 1/8" NPT X 2"	\$30.95
BIL 66310	- 3 AN X 1/8" NPT X 2 3/8"	\$30.95

Master Power Brakes® - Combination Valve

Part #	Details	Price
MPB VL3360	Drum or Disc/Disc Combination Valve	\$139.95

Master Power Brakes® - Combination Valves

A combination valve is used to provide the correct front to rear pressure balance and to help eliminate rear wheel lockup and nose dive. *Contact an Old Dog Sales rep to assist you with brackets and line kits for your application.*

Part #	Details	Price
MPB VL3350A	Disc/Drum Combination Valve	\$99.95
MPB VL3359A	Disc/Disc Combination Valve	\$109.95

Wilwood Engineering® - Proportioning Valve

Used in brake line to lower initial pressure for rear drum brakes. Adjustable.

Part #	Details	Price
WIL 260-8419	Wilwood Adjustable- Proportioning Valve	\$51.50

Wilwood Engineering® - Combination Style Proportioning Valve

This valve has separate front and rear brake circuits. The rear circuit has an adjustable proportioning valve. The brake light switch is activated by pressure in the front circuit.

Part #	Details	Price
WIL 260-11179	Combination Style Proportioning Valve	\$59.79

BRAKES

*All prices are subject to change without notice.

Wilwood Engineering[®] - Residual Valves

The 2 pound valve is used in disc brake systems where the Master Cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive piston retraction and a longer pedal stroke. With Drum Brakes, a 10 pound valve is used to compensate for return spring tension in the drums.

Part #	Details	Price
WIL 260-3278	2 lb. Residual Valve for Disc Brakes	\$22.95
WIL 260-3279	10 lb. Residual Valve for Drum Brakes	\$22.95

Painless[®] - Brake Switches

Part #	Details	Price
PPP 80171	Hydraulic Brake Light Switch 1/8" NPT	\$11.95
PPP 80174	Low Pressure Brake Light Switch 1/8" NPT	\$13.95

Mechanical Brake Switches

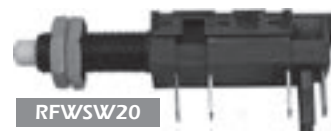

WSWL08

RFWSW42

HAYD1008

RFWSW20

Part #	Details	Price
RFW SW-42	Mechanical Brake Switch (Waterproof)	\$31.85
HAY D1006	Lever Brake Switch (Waterproof)	\$13.00
HAY D1008	Push Button Brake Light Switch (Interior Use)	\$8.00
RFW SW-20	Push Button Interior Switch with Cruise	\$19.95
WSW L08	Adjustable Lever Brake Switch (Waterproof)	\$22.00

Ron Francis Wiring[®] - Brake Switch Controlled Relay

Allows the use of standard brake switch like the SW-42 to act as both a brake switch and cruise control or torque converter disengagement switch.

Part #	Details	Price
RFW BR-15	Brake Switch Controlled Relay	\$47.25

Painless[®] - Brake Light Relay Kit

When upgrading tail lights to the new higher wattage halogens, always use a relay. The Painless kit gives you everything you need to protect your wiring and switches.

Part #	Details	Price
PPP 30105	Brake Light Relay Kit	\$26.95

Wilwood Engineering[®] - Hi-Temp 570[°] Racing Brake Fluid

Wilwoods specially formulated Hi-Temp 570[°] Racing Brake Fluid has a minimum 570[°] F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp 570[°]'s low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal. Compatible with Dot 3 and Dot 4 Fluid.

Part #	Details	Price
WIL 290-0633	Wilwood Brake Fluid - 12 oz Bottle	\$7.95
